# Top management awareness

- Does the CEO know what is that all about?
- Do you have the team?
- Have you formally initiated the project?
- What are you waiting for?

# Personal information – what, where, why, ...

- Perform information audit
- Document information you hold
- Identify who you share it with and how
- Update privacy notices and policies
- Reflect individual rights as specified by GDPR
- Review subject access request procedures

## Legal stuff

- Review legal basis for information processing
- Review consent procedures and records
- Take special care of children's information
- Review and update data breach notifications
- Consider international aspects, identify legal authorities

# Data protection officer

- Knowledge, support, authority
- Communicate with local government agency
- Educate if necessary

# Privacy by desing and PIA

- Integrate privacy by design in your project and risk management
- Conduct Privacy Impact Assessments
- Review your controls frameworks
- Document risk management plan
- Implement technical measures

## Quick Positioning
